1 OPhO Open Contest Scoring Algorithm

The base score for each problem is dependent on the difficulty which in turn is decided by the number of people who successfully answered it. Each incorrect attempt will decrease the base score and teams will be awarded bonus points for correctly solving it quickly.

The scoring mechanism is heavily based off of the one used at HMMT (Harvard-MIT Mathematics Tourney):

$$w(n, N) = (0.9)^{i+j} [\exp(n/40) + \max(5.5 - \lfloor \ln N \rfloor, 2)],$$

where $i \in \{0, 1, 2\}$ (represents whether a team got it on the first try, second try, or third try) and $j \in \{0, 1, 2, 3, 4\}$ (represents what day of the competition the team got the question on). Additionally, N represents the number of teams that got the question right and n represents the question number (in this regard, expect all questions to be ordered by difficulty). The cumulative score of a submission will be determined by the sum of these values. With this scoring system, ties will be very unlikely.

2 OPhO Open Contest Results

Thank you to the **340 teams** from over **45 countries** that competed in the 2020 Online Physics Olympiad Open Contest! We hope that you enjoyed the competition and will return to compete again next year. To summarize our decisions, we have chosen a total of **39 teams** to compete in the Online Physics Olympiad Invitational Contest, which will be running in July or August 2020. Additionally, we have awarded **29 teams** with the "*High Honors*" distinction and **28 teams** with the "*Honors*" distinction. Congrats to all of our awardees!

This year's winner of the first ever Online Physics Olympiad is *Everything is Relative*; 2nd place is awarded to *Team Jaipur*; 3rd place is awarded to *Physics Geniuses*! Below are summary of statistics; more detailed results/stats are on the next few pages.

Invitational Qualification Cutoff Score	130
High Honors Cutoff Score	140
Honors Cutoff Score	105
Top Score	181.662
Top Individual Score	169.718
Minimum Score	0
Least Solved Problem	Pr. 53
Most Solved Problem	Pr. 6

Note: On the next page, green represents all teams who qualified to receive the "*Honors*" distinction, while blue represents all teams who have qualified to receive the "*High Honors*" distinction. All teams *above* the five line divide have qualified for the **OPhO Invitational Contest**.
